

MINDSET TO MANIFEST

AUGUST 2026 AWAKENING

Awakening (*noun*) – Manifesting is both art and science. The art is imagination - holding your dream as if it already exists. The science is timing - aligning with your numerology chart, your progress, your pinnacles, your challenges, your NOW.

ENERGY

In the Chamber of Clarity, you look into a pool that has shimmering light. Place your desire into the water so it becomes clearer, sharper, and more aligned with your soul's path.

Lesson – Manifesting begins with clarity - knowing what you truly want, not with wishful thinking.

GUIDES

Merlin takes you to the Chamber of Alignment to release your fear and doubt. He reminds you that 2026 is a 1-year. August is an 8-month. Together they create 9 – the energy that urges you to release anything that blocks your manifesting.

Lesson – To manifest, you must dissolve fear, doubt, hesitation, and the belief that manifesting might not work for you.

MINDSET

In the Chamber of Activation, Clio activates your imagination, helping you see your dream as already real. Merlin activates your timing, helping you feel the right moment to act, trust, and receive.

Together, they ignite your tractor-beam energy – the magnetic pull that draws your desires into your life.

*Lesson – You are now in the flow of your personal journey.
Stay aligned, stay aware, and let the 8-energy amplify your power.*
