Insights (*noun*) – Your list of items - *awaken, trust, learn to listen with your whole being.*

ENERGY

You are surrounded by frequencies—whispers of wisdom encoded in sound, color, and vibration. To awaken your intuition, you must learn to listen with your whole being.

Lesson – Each emotion, each decision, each synchronicity carries a frequency. Tune in, and you'll begin to navigate life by resonance, not reaction.

GUIDES

You see images of your daily life—moments when you felt a nudge, a knowing, a subtle shift. Merlin explains that these are vibrational cues—your environment speaking to you in its native tongue. Clio says that your intuition is a symphony. It plays through your senses, your dreams, your desires.

Lesson – Notice the vibrations around you—music, colors, numbers, emotions. They are your guides.

MINDSET

You are ready. Trust the frequencies. They are the language of your soul.

Lesson – It's time to carry and use the wisdom of vibration and the tools of intuitive awareness.
